<i>Business Purpose</i>	Hospital Fire Safety Training
<i>Target Audience</i>	Hospital Employees (Responsible for Patients During a Fire)
<i>Training Time</i>	< 30 minutes
<i>Training Recommendation</i>	The hospital employees need to be trained on the proper procedures for handling fire situations that may occur in the workplace. These protocols can be introduced with a Fire Safety eLearning Training that focuses on PASS and RACE procedures to instruct employees on how to put out fires if they occur and how to safely evacuate themselves and their patients from the building when necessary.
<i>Deliverables</i>	Rise eLearning Course
<i>Learning Objectives</i>	<ol style="list-style-type: none">1) Identify the three elements of the Fire Triangle2) Demonstrate RACE Procedure steps to evacuate patients in the event of a fire3) Apply PASS Procedure actions to put out a fire with a fire extinguisher4) Give examples of fire safety precautions and tips for successful evacuations
<i>Training Outline</i>	<ol style="list-style-type: none">1) Introduction2) The Fire Triangle<ol style="list-style-type: none">1) Fire Extinguisher Safety2) The PASS Procedure3) The RACE Procedure4) Safety Precautions for Evacuation5) Fire Prevention Tips6) Conclusion
<i>Evaluation Plan</i>	The learners will be evaluated with Knowledge Checks within each topic section and with their responses to periodic scenarios to test their understanding of the material with real life application.
